List of figures

Fig. 1.1 Map of Lesser Antilles and Guadeloupe with studied sites (M. Oberendorf)
Fig. 2.1 Gastropod terms (T. & Y. Lammers)
Fig. 2.2 Bivalve shell terms (T. & Y. Lammers)
Fig. 2.3 Scheme of types of perforations in shell beads (T. & Y. Lammers)
Fig. 2.4 Polar coordinates bivalve shell (T. & Y. Lammers)
Fig. 2.5 Polar scheme angel of study bivalve edge (T. & Y. Lammers)
Fig. 3.1 Peeling manioc (Y. Lammers)
Fig. 3.2 Scrapping manioc, experiment and in ethnographic context (Surinam 2000) (A. Vredenbregt)
Fig. 3.3 Preparing Roucou with experimental bivalve shell (Y. Lammers)
Fig. 3.4 Incising calabash (Y. Lammers)
Fig. 3.5 Scrapping inside calabash (Y. Lammers)
Fig. 3.6 Traces of plant and woodworking on shell tools (Y. Lammers)
Fig. 3.7 Experimental plant working traces on shell tools, description of characteristics (T.& Y. Lammers)
Fig. 3.8 Scrapping branches with bivalve shell (Y. Lammers)
Fig. 3.9 Groove and splinter technique with flint on Campêche (Y. Lammers)
Fig. 3.10 Experimental wood working traces on bivalve shells, description of characteristics (T.& Y. Lammers)
Fig. 3.11 Manufacturing shell celts: removing lip, shaping lip, polishing lip (Y. Lammers)
Fig. 3.12 Use of experimental celts as axe and adze on fresh and burnt wood (Y. Lammers)
Fig. 3.13 Experimental wood working traces on shell celts, description of characteristics (T.& Y. Lammers)
Fig. 3.14 Traces of woodworking on celts (Y. Lammers)
Fig. 3.15 Traces of scraping rabbit skin (exp. 685), orig. magn. 200x (Y. Lammers)
Fig. 3.16 Experimental hide working traces on shell tools, description of characteristics (T.& Y. Lammers)
Fig. 3.17 Descaling fish with experimental bivalve shell (Y. Lammers)
Fig. 3.18 Polishing stones from ethnographic context (Surinam 2000)(A. Vredenbregt)
Fig. 3.19 Experimental clay working traces on shell tools, description of characteristics (T.& Y. Lammers)
Fig. 3.20 Traces of scraping clay (exp. 627), orig. magn. 200x (Y. Lammers)
Fig. 3.21 Polishing Chama sarda with experimental coral tools (Y. Lammers)
Fig. 3.22 Experimental tools used to drill shell (Y. Lammers)
Fig. 4.1 Different stages of manufacturing Chama sarda beads (J.Pauptit)
Fig. 4.2 Hipbelt and loose beads of Strombus sp. (J.Pauptit)
Fig. 4.3 Tinklers and pendants, bivalve shell with perforation (J.Pauptit)
Fig. 4.4 Decorated sweetwater pendants (J.Pauptit)
Fig. 4.5 Adornments: applications (J.Pauptit)
Fig. 4.6 Decorated pieces (J.Pauptit)
Fig. 4.7 Inlays and discs (J.Pauptit)
Fig. 4.8 Three-pointers with (above) and without pedestal (J.Pauptit)
Fig. 4.9 Polished cylinders (J. Pauptit, E.van Driel)
Fig. 4.10 Spatula (J.Pauptit)
Fig. 4.11 Rounded shell fragments (J.Pauptit)
Fig. 4.12 Animal representations: sharks (J. Pauptit, E.van Driel)
Fig. 4.13 Animal representations: frogs (J.Pauptit)
Fig. 4.14 Tooth with monkey head, ‘Jaguar’ tooth, parts of teeth or snakes (J. Paupert, E.van Driel)
Fig. 4.15 Anthropomorphic representations: chin with mouth (J.Pauptit)
Fig. 4.16 Geometric objects: earplug and heavy disc (J.Pauptit)
Fig. 4.17 Geometric objects: conical shaped object (E.van Driel)
LIST OF FIGURES

Fig. 4.18 Used bivalve shells (R.Timmermans)
Fig. 4.19 Used bivalve shells (R.Timmermans)
Fig. 4.20 a: Shell 167, orig. magn. 100x b: Shell 132, orig. magn. 200x (Y. Lammers)
Fig. 4.21 Used Tellina radiata shells (R.Timmermans)
Fig. 4.22 Used Tellina radiata shells (R.Timmermans)
Fig. 4.23 Celts (J.Pauptit)
Fig. 4.24 Shell celts Strombus gigas (R.Timmermans)
Fig. 4.25 Shell celts Strombus gigas (R.Timmermans)
Fig. 4.26 Shell celts Strombus gigas (R.Timmermans)
Fig. 4.27 a: Shell 2011, celt b: Shell 3079 (Y. Lammers)
Fig. 4.28 Fishhooks (J. Paupert, R. Timmermans)
Fig. 4.29 Fishhook? (J. Paupert, R. Timmermans)
Fig. 4.30 Spoon (left) and measure, production waste (J. Paupert)
Fig. 4.31 Containers (J. Paupert, E. van Driel)
Fig. 4.32 Awls (R. Timmermans)
Fig. 4.33 Flint tools, usewear traces depicted in drawings (R. Timmermans)
Fig. 4.34 Flint tools, usewear traces depicted in drawings (R. Timmermans)
Fig. 4.35 Flint tools, usewear traces depicted in drawings (R. Timmermans)
Fig. 4.36 Flint tools, usewear traces depicted in drawings (R. Timmermans)
Fig. 4.37 Water-worn pebble with residue (R. Timmermans)
Fig. 4.38 Celts (R. Timmermans)
Fig. 4.39 Rubbing stones (R. Timmermans)
Fig. 4.40 Rubbing/pounding stone with diagonal traces (R. Timmermans)
Fig. 4.41 Querns (R. Timmermans)
Fig. 4.42 (Fragment of) mano/metate (R. Timmermans)
Fig. 4.43 Combination tool, rubbing/pounding/anvil (R. Timmermans)
Fig. 4.44 Rubbing stone (R. Timmermans)
Fig. 4.45 Pounding stones (R. Timmermans)
Fig. 4.46 Rubbing/grinding stones (R. Timmermans)
Fig. 4.47 Coral tools: pointed tools, abraded angle tools, tools with residue (J. Paupert)
Fig. 5.1 Ornaments (J.Pauptit)
Fig. 5.2 Tools, drawing of decorated cylinder/haft with residue (J.Pauptit, E. van Driel)
Fig. 5.3 Bivalve shells, used (R. Timmermans)
Fig. 5.4 Celts (J. Paupert)
Fig. 5.5 Celts (R. Timmermans)
Fig. 5.6 Celts (R. Timmermans)
Fig. 5.7 Artefacts without context, Museum Edgar Clerc (M. Hoogland)
Fig. 5.8 Flint tools, usewear traces depicted in drawings (R. Timmermans)
Fig. 5.9 Flint tools, usewear traces depicted in drawings (R. Timmermans)
Fig. 5.10 Flint tools, usewear traces depicted in drawings (R. Timmermans)
Fig. 5.11 Flint tools, usewear traces depicted in drawings (R. Timmermans)
Fig. 5.12 Celts (R. Timmermans)
Fig. 5.13 Pounding tool (R. Timmermans)
Fig. 5.14 Fragment of a quern (R. Timmermans)
Fig. 5.15 Fragment of mano? (R. Timmermans)
Fig. 5.16 Used flake of sandstone (R. Timmermans)
Fig. 5.17 Combination tool: rubbing, hammering, anvil traces (R. Timmermans)
Fig. 5.18 Water-worn pebbles with residue (R. Timmermans), pictures orig. magn. 50 x (Y. Lammers)
Fig. 5.19 Secondarily used pottery sherd (E. van Driel)
Fig. 6.1 Domestic activities: a variety of performed tasks (M. Oberendorff & Y. Lammers)
Fig. 6.2 Artefact production: the technological system (M. Oberendorff & Y. Lammers)

List of tables

4.1 Hole types in Chama sarda beads versus production step, number of beads
4.2 Holes in tinklers versus shell species, number of tinklers
4.3 Holes in tinklers, bottomhole only versus shell species, number of tinklers
4.4 Shell, macro-wear types versus shell species, number of bivalves
4.5 Shell, macro-traces versus worked material, number of bivalves
4.6 Shell, shell species versus motion, number of bivalves
4.7 Shell, shell species versus worked material, number of bivalves
4.8 Shell, shape of edge versus shape of celt, number of celts
4.9 Shell, type of finish celts versus symmetry of edge, number of celts
4.10 Shell, interpretation of use versus symmetry of edge, number of celts
4.11 Shell, interpreted function versus worked material, number of celts
4.12 Flint, worked material versus motion, number of used edges
4.13 Flint, artefact type versus motion, number of used edges
4.14 Flint, artefact type versus worked material, number of used edges
4.15 Stone, tool type versus motion, number of used locations
5.1 Flint artefacts, worked material versus motion, number of used edges
5.2 Stone, tool type versus motion, number of locations

List of appendices

1 Code-list Use wear traces
2 Code-list Shell artefact description, variables and possible entries
