# Table of Contents

Chapter 1  --  Transcutaneous immunization: A general introduction  

Chapter 2  --  Aim of the thesis and study objectives  

Chapter 3  --  Microneedle arrays for the transcutaneous delivery of influenza vaccine and diphtheria toxoid  

Chapter 4  --  Immune modulation by adjuvants combined with diphtheria toxoid administered topically in mice after microneedle array pretreatment  

Chapter 5  --  Preparation and characterization of diphtheria toxoid-loaded elastic vesicles for transcutaneous immunization  

Chapter 6  --  Transcutaneous immunization studies in mice using diphtheria toxoid-loaded vesicle formulations and a microneedle array  

Chapter 7  --  Summary, general discussion and perspectives
