Author: Jiang, Xiaohong
Title: Construction characterization and application of Flavivirus infectious clones
Issue Date: 2013-11-06
Xiaohong Jiang was born on April 10th, 1983 in Shanghai, China. In 2001, she finished secondary education in Shanghai High School. In the same year, she was enrolled into the School of Life Science in Fudan University, where she studied until 2005 and graduated with a B.Sc. diploma. She joined the Department of Medical Microbiology in Leiden University Medical Center (LUMC) in April 2006 and was trained as an intern for one year under the supervision of Dr. P.J. Bredenbeek, Dr. M. Kikkert and Prof. Dr. E. J. Snijder. She continued as a Ph.D. student (Onderzoeker in Opleiding) in the same department to carry out the research as described in this thesis, under the supervision of Dr. P.J. Bredenbeek and Prof. Dr. W. J. M. Spaan. Since July 2012, Xiaohong has been working as a research scientist in the Asian Veterinary Research&Development Center at Boehringer Ingelheim in Shanghai to continue her career as a virologist.
