'When I remember my childhood pains, I do not think about broken bones, hurt knees, swollen ankles; I remember the pain of being excluded, rejected, isolated'
S. Fry, 1997, Moab is my Washpot.
CONTENTS

Chapter 1: General Introduction 7

Section 1: The Impact of Childhood Emotional Maltreatment on Cognition 21
Chapter 2: Child abuse and negative explicit and automatic self-associations: the cognitive scars of emotional maltreatment 23
Chapter 3: Intrusions of autobiographical memories in individuals reporting childhood emotional maltreatment 41

Section 2: The Impact of Childhood Emotional Maltreatment on Brain Structure 57
Chapter 4: Reduced medial Prefrontal Cortex volume in adults reporting Childhood Emotional Maltreatment 59

Section 3: The Impact of Childhood Emotional Maltreatment on Brain Functioning 75
Chapter 5: Enhanced Amygdala reactivity in adults reporting Childhood Emotional Maltreatment 77
Chapter 6: Hypoactive medial prefrontal cortex activity in adults reporting childhood emotional maltreatment 95
Chapter 7: Enhanced mPFC reactivity to social rejection in young adult patients and controls reporting childhood emotional maltreatment 119

Chapter 8: Summary and Discussion 141
