## Contents

Chapter 1	General introduction	9
-----------	----------------------	---

### Part I            **Step 1: Creating choice awareness**

Chapter 2	Deciding about (neo-)adjuvant rectal and breast cancer treatment: Missed opportunities for shared decision making <i>Acta Oncologica (2015) epub ahead of print</i>	23
-----------	--	----

### Part II           **Step 2: Discussing treatment options in detail**

Chapter 3	Decision consultations on preoperative radiotherapy for rectal cancer: Large variation in benefits and harms that are addressed <i>British Journal of Cancer (2015) 112:39-43</i>	39
-----------	--	----

Chapter 4	Which benefits and harms of preoperative radiotherapy should be addressed? A Delphi consensus study among rectal cancer patients and radiation oncologists <i>Radiotherapy and Oncology (2015) 114:212-217</i>	55
-----------	---	----

Chapter 5	Probabilities of benefit and harms of preoperative radiotherapy for rectal cancer: What do radiation oncologists tell and what do patients understand? <i>Patient Education and Counseling (2015) 98:1092-1098</i>	73
-----------	---	----

Chapter 6	Do oncologists convey what they intend? Lay interpretation of verbal risk labels used in decision consultations <i>Submitted for publication</i>	95
<b>Part III</b>	<b>Step 3: Discussing patients' values and preferences and deciding what is best</b>	
Chapter 7	Considering patient values and treatment preferences enhances patient involvement in rectal cancer treatment decision making <i>Radiotherapy and Oncology (2015) 117:338-342</i>	109
Chapter 8	Treatment preferences and involvement in treatment decision making of patients with endometrial cancer and clinicians <i>British Journal of Cancer (2014) 111:674-679</i>	125
Chapter 9	General discussion	143
	Summary/Summary in Dutch	169
	About the author	181
	Acknowledgements in Dutch	191
