Andrea Wildeboer
Geboren te Rotterdam in 1986
The Generation R Study is conducted by the Erasmus Medical Center in close collaboration with the Erasmus University Rotterdam, School of Law and Faculty of Social Sciences, the Municipal Health Service Rotterdam area, Rotterdam, the Rotterdam Homecare Foundation, Rotterdam, and the Stichting Trombosedienst & Arsentebolatorium Rijnmond (STAR), Rotterdam. We gratefully acknowledge the contribution of general practitioners, hospitals, midwives and pharmacies in Rotterdam. The first phase of the Generation R Study was made possible by financial support from: Erasmus Medical Centre, Rotterdam, Erasmus University Rotterdam and the Netherlands Organization for Health Research and Development (ZonMw), the Netherlands Organisation for Scientific Research (NWO), the Ministry of Health, Welfare and Sport and the Ministry of Youth and Families. In addition, this study was financially supported through ZonMw TOP project number 91211021 (TW). MJB-K and MHvIJ were supported by research awards from the Netherlands Organization for Scientific Research and the European Research Council (MHvIJ: SPINOZA prize; MJBK: VICI grant, ERC AdG). MJB-K, HT, and MHvIJ are also members of the Consortium on Individual Development which is funded through the Gravitation program of the Dutch Ministry of Education, Culture, and Science and the Netherlands Organization for Scientific Research (NWO grant number 024.001.003).
Contents

Chapter 1   General introduction ............................................................ 9

Chapter 2  Early childhood aggression trajectories:  
Associations with teacher-reported  
problem behavior ................................................................. 23

Chapter 3  Anxiety and social responsiveness moderate  
the effect of situational demands on children’s  
donating behavior ...................................................................59

Chapter 4  Bystander behavior during social exclusion is  
independent of familiarity of the victim, child  
and parenting characteristics .................................................87

Chapter 5  Neuroanatomical correlates of donating  
behavior in middle childhood................................................117

Chapter 6  General discussion ..............................................................143

Chapter 7  Supplementary material Chapter 2 ......................... 163  
            Supplementary material Chapter 3 .......................170  
            Supplementary material Chapter 4 ...................171

Appendices  Nederlandse samenvatting (Summary in Dutch) ..........185  
            Dankwoord (Acknowledgements) ..........................193  
            Curriculum Vitae ......................................................194  
            Lijst van publicaties (List of publications)...............195
